

AMENDMENTS TO THE ABSTRACT OF THE DISCLOSURE

Please amend the Abstract by rewriting same to read as follows.

A fan control apparatus and a ~~fan control~~ method which ~~can~~ to reduce the temperature in ~~[[the]]~~ an equipment body by a time control when setting ~~[[the]]~~ a stop period constant at the ~~starting time~~ start by adding a time axis fan control ~~additively to a fan control~~ by means of a temperature sensor. The fan control apparatus ~~comprises~~ includes a temperature sensor ~~9 which~~ that detects the temperature in the equipment body; a CPU ~~[[1]]~~ and a ~~sub-micom 4 as an temperature control function which~~ sub-microcomputer perform the control of the cooling fans ~~7 and 8~~ according to the detected temperature value~~[[; a]]~~. The CPU ~~1 as a communication function which~~ performs ~~[[the]]~~ communication with a server ~~[[11]]~~ connected to the equipment body via a network ~~[[10;]]~~, and ~~[[a]]~~ the CPU ~~[[1]]~~ and a ~~sub-micom 4 as a time control function which~~ sub-microcomputer perform the control of the cooling fans ~~7 and 8~~ according to the time value based on a previous communication start and ~~this time~~ the present communication ~~starts~~ start.
